

# Empathy map

Use this framework to develop a deep, shared understanding and empathy for other people. An empathy map helps describe the aspects of a user's experience, needs and pain points, to quickly understand your users’ experience and mindset.

## Build empathy

A Review of liver Patient Analysis Methods Using Machine Learning.

### Says

What have we heard them say?  
What can we magine them saying?

### Thinks

What are their wants, needs, hopes,  
and dreams? What other thoughts  
might influence their behavior?

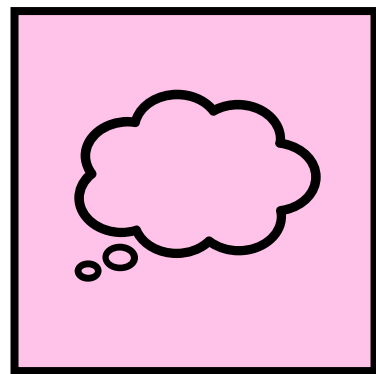

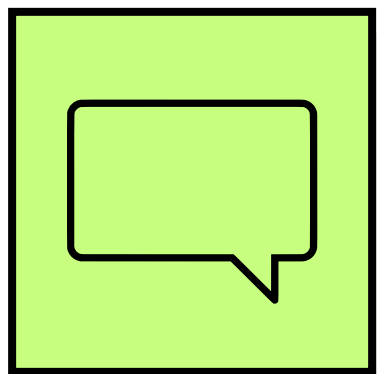

its is reliable

model  
accurately  
classify the  
liver patient  
analysis

need an  
accurate model  
to predict the  
liver patient  
analysis

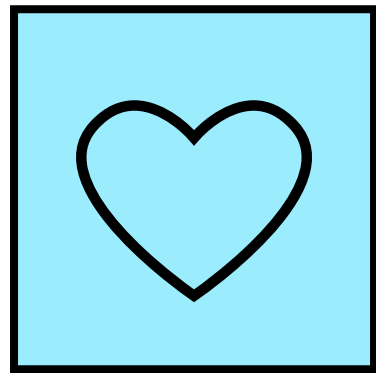

Ethical and  
legal model

privacy and  
preserving  
model

need to  
maintain the  
privacy

A Review of Liver  
Patient Analysis  
Methods Using  
Machine Learning

sending  
feedback

user  
friendly

regular  
updates

notification  
and  
suggestion

very  
interisting

very eager  
to use the  
model

### Does

What behavior have we observed?  
What can we imagine them doing?

### Feels

What are their fears, frustrations, and  
anxieties? What other feelings might  
influence their behavior?
